

National Infrastructure Institute
Center for Infrastructure Expertise

Online Library

The Clearinghouse for information related to built critical infrastructure protection.

www.NI2CIEL.org

A free public online Library that is now your information resource for homeland security. This Library is designed to enhance your knowledge about national security and disaster preparedness by offering a clearinghouse for important information related to the protection of “built” critical infrastructure and key resources.

- ❖ A partnership between the National Infrastructure Institute (NI²) Center for Infrastructure Expertise and the University of New Hampshire
- ❖ Captures, organizes, and archives the wealth of information available regarding protection of the nation's physical critical infrastructure

User Benefits

- ❖ Actively managed
- ❖ A quality-controlled resource for professionals and scholars interested in Homeland Security/Critical Infrastructure protection
- ❖ Easy search features
- ❖ Free and open to the public
- ❖ Suitable for experts and novices

What the library does for you

- ❖ Learn about upcoming professional conferences
- ❖ View homeland security educational programs
- ❖ Search for government documents and independent reports

The NI² Center for Infrastructure Expertise, which designed and manages the Library, continually searches for new references and articles to expand the collection.

What you'll find in the library

- ❖ Important articles, news items, research reports and references
- ❖ Links to related web sites and dates of upcoming conferences and training
- ❖ Information about homeland security education programs
- ❖ Government documents related to critical infrastructure
- ❖ Glossary of terms and concepts, tutorials and fact sheets designed to orient newcomers
