

SMART School Tool™

School Multi-hazard Assessment and Resource Tool
...an all-hazards approach to school safety & security.

The SMART School Tool™ is FREE to schools, public safety and other government, academic, and non-profit organizations dedicated to creating safe and secure learning environments in our schools.

SMART achieves greater levels of safety, security and health through an “all-hazards” approach.

- ❖ Reduction and management of risks.
- ❖ Careful examination of school hazards
- ❖ Examination of school policies and procedures.

SMART encourages a team approach.

- ❖ Involves the partners who assist the school with crisis planning and management
- ❖ SMART assessments are tailored to the individual school.

SMART provides online resources.

- ❖ Best practices and effective technologies that can be implemented to improve school safety, security and health.

SMART is funded by a grant from the National Institute of Standards and Technology and was developed in collaboration with safety and security experts, school administrators, teachers, academic researchers and first responders.
